The campus is equipped with audio/visual equipment such as projectors and tvs, which assist the instructor in creating a production based learning environment. Computer labs are organized to maximize learning outcomes central to a specific course of study. Desktop computers are networked in most classrooms throughout the campus.

Students enrolled in Medical Programs will work with equipment common to their field of study. Medical Assistant and Medical Billing Office Administration students will utilize computers to simulate Electronic Medical Records (EMR) and other medical office documentation. Medical Assistant students will utilize equipment used to take blood pressure, collect lab specimens, give injections, and more. Some of the Vocational Nursing lab equipment includes mannequins, medication carts, and patient monitors. Physical Therapist Assistant student lab equipment examples include patient tables, treadmill, stethoscopes, walkers, canes, weights, and more.

Students in Heating Ventilation and Air Conditioning work in labs designed to compliment equipment used in their career paths. HVAC students will troubleshoot Air Compressors, Ice Machines, Residential and Commercial AC and Heating Units. HVAC students will be provided tool kits that include tools appropriate to the trade. Welding Technician students will utilize a variety of welding equipment which includes but is not limited to grinders, cutters, saws, and welders. Industrial Maintenance and Automated Technology students will utilize PLC trainers, electrical and wiring board trainers, and will sometimes learn utilizing equipment in both the HVAC and Welding labs.

Students enrolled in the Culinary Arts or Baking and Pastry courses will be learning their craft at Institute of Technology's full service kitchen. The kitchen is equipped with ovens, broilers, walk-in freezer, demonstration tables and baking ovens to provide culinary students with a learning environ-

ment similar to those found in restaurants. In addition to chef's uniforms, culinary students will be provided either a cutlery set or a baking tool set.

Students in the Criminology and Emergency Response Management (CERM) program work in an industry standard firearm simulator designed to compliment equipment used in their career paths. CERM students will encounter simulated life threatening circumstances that require the use of deadly force and be required to respond appropriately. CERM students will be provided access to equipment that includes firearms, emergency response equipment, and physical training facilities appropriate to the trade.

The Cosmetology and Barbering programs have use of mannequins and tool-kits in both the classroom and student salon. The student salon includes both barbering and cosmetology stations.

## Vocational Nursing Addendum

### ACCREDITATION AND CERTIFICATION

Institute of Technology is authorized and fully approved by the Board of Vocational Nursing and Psychiatric Technicians (BVNPT), 2535 Capitol Oaks Drive, Suite 205, Sacramento, CA 95833-2945, telephone (916) 263-7800; fax (916) 263-7859, [www.bvnpt.ca.gov](http://www.bvnpt.ca.gov). A copy of this Bureau approval is on display in the lobby entrance of the Institute of Technology.

### ACADEMIC ASSISTANCE

Institute of Technology instructors are available during their scheduled office hours to assist students with academic issues. Specific hours for each instructor will be noted on course syllabi. Institute of Technology also provides students with the opportunity to practice skills during "Open Lab" time, which will be posted at the beginning of each semester. The various labs will be supervised by instructors to assist students on an as-needed basis. We encourage students to use the Open Labs time to perfect hands-on skills such as computer software, office skills, lab procedures, beginning and intermediate nursing skills, NCLEX review, etc.

In conjunction with the Academic Services Department, additional academic assistance may be provided in the form of one-on-one or small group instruction.

### GENERAL ADMISSIONS REQUIREMENTS

## DRUG SCREEN AND BACKGROUND CHECKS

Most clinical facilities require evidence of a “clear” background check prior to participating in clinical rotation. **Clear is defined as without sexual/elder/child/spousal abuse, un-acquitted felonies, embezzlement, misdemeanor which includes an element of monetary theft.**

Institute of Technology utilizes an online source for background checks. Students will undergo a background check prior to attending clinical rotations. Background checks are not performed as a condition of enrollment into the program.

All Institute of Technology students will undergo a pre-enrollment drug screen prior to program admission. Institute of Technology also participates in random drug screening throughout the course of each program or if a student’s behavior is suspicious of drug or alcohol use. **\*Please refer to our Drug Screening Policy described in the Institute of Technology Catalog and VN Program Handbook.**

## TRANSFER OF CREDIT FROM INSTITUTE OF TECHNOLOGY

The Vocational Nursing program units do not transfer directly to an RN program; however, once a student passes the state licensure examination (NCLEX-PN) and receives their license, the license is typically transferable into an LVN-to-RN bridge program, provided the student has completed the prerequisites of the LVN-to-RN bridge program. Prerequisites of the LVN-to-RN bridge program are not the same as the Institute of Technology VN prerequisites. It is the receiving institution’s prerogative whether or not to accept any coursework from Institute of Technology. Institute of Technology will assist any educational institution to facilitate a graduate’s continuing education.

## ATTENDANCE

Students are expected to attend all sessions of each class in which they are enrolled. Attendance to all classes is required to establish a foundation for nursing skills and theory. Failure to attend theory, skills lab, or clinical classes may result in a student’s inability to meet course objectives.

All missed hours must be made up. If 8 hours or more are missed the student will be placed on “AT RISK”. If additional hours are missed, the student may be placed on “VN PROBATION”.

Students may make up theory and skills lab hours during the course of the semester. Clinical absences, however, can only be made up during the make up week following finals week when an additional clinical day is available. In this case, the student will receive an “I” (Course Incomplete) until the hours have been completed during the make up week.

*Note: Clinical make up options are not always available, such as specific clinical rotations, until the following semester which may necessitate students repeating a semester. More hours missed than can be made up during the make up week may necessitate students repeating a semester.*

All missed theory or skills lab hours must be made up in the Theory or Skills “Open lab” with specific objectives being completed. A Mandatory Attendance form will be completed by the instructor with specific assignments listed. Acceptable methods of make up for theory, skills lab or clinical are at the discretion of the course instructor or as identified below:

- Theory – Acceptable methods of make-up may include:
  - Case Studies
  - Independent study in the Theory “Open Lab”
  - Written examination
  - Attendance at seminars or workshops
  - Auto tutorial laboratory
  - Research Reports
- Skills – Acceptable methods of make-up include:
  - Attendance in the Skills “Open Lab” – Instructor demo, practice and/or return demonstration on Skill of the week.
- Clinical – Acceptable methods of make-up include:
  - Performance evaluation in skills laboratory
  - Or, if available additional time in the clinical area with clients/patients.

It is the student’s responsibility to insure that make up work for absences is completed and documentation submitted. The complete Attendance Policy and other policies are described in the IOT VN Program Handbook.

## GRADING SYSTEM

(Continued on page 17)

## Vocational Nursing Addendum

(Continued from page 16)

Student performance evaluation is based on the combined scores received on homework assignments, quizzes, projects, skills performance, class participation, mid-course exams, Independent Study projects, and final examinations. All scores earned are converted to a percentage of the total score possible within each course. The range of the percentages converted to the letter grade as shown below will determine the final grade in each course. All course final grades are recorded as a letter grade. The progress or grading system by which students will be evaluated is as follows:

PERCENT	GRADE
90-100%	A
80-89%	B
75-79%	C
74% or below	F

### Grading

The grading standards, with the grade point equivalents, are as follows:

GRADE	RATE	Grade Points/Unit
A	Excellent	4.00
B	Good	3.00
C	Satisfactory	2.00
F	Failing	0.00
Pass/No Pass	Externships Only	0.00
I	Course Incomplete	
CH	Challenge	
TC	Transfer Credit	

The grade-point average (GPA) is determined by dividing the total grade points earned by the total units attempted.

Often, there are more applicants than available seats in a given program. Many factors are taken into consideration by the Admissions Department. Applicants who are admitted may be judged based on their readiness to succeed. The following represents

possible evaluation measures:

- Volunteer Hours and Writing Sample
- Wonderlic and Math Exams

A copy of the complete PTA admissions process and selection criteria is available by contacting an Admissions Representative and outlined in the Prospective Student Handout.

Most clinical facilities require evidence of a "clear" background check prior to participating in a clinical rotation. Clear is defined as without sexual/elder/child/spousal abuse, un-acquitted felonies, embezzlement, misdemeanor which includes an element of monetary theft.

Institute of Technology utilizes an online source for background checks. Students may be required to undergo a background check prior to attending clinical rotations. Background checks are not performed as a condition of enrollment into the program.

During the clinical portion of study, the student may be subject to random drug testing at a clinic site based on the facility's policy.

## ATTENDANCE

In order to facilitate optimal learning and promote professionalism in the classroom and workplace, daily attendance is required for all classes/ experiences in the PTA curriculum. Because attendance and punctuality are important responsibilities in the classroom, laboratory and clinical practicums – absences and tardiness are not only discouraged, but penalized. All classes will close their doors ten (10) minutes after their scheduled beginning of the class and any tardy will be recorded in the student's record. The student is afforded up to three (3) absences (excused/unexcused) per class, per term and every two (2) tardiness count as one (1) absence.

Clinical practicums are an essential component of the IOT PTA Program. Students are expected to follow the full-time hours set by the clinic site which are greater than the typical hours of on-ground classes. If the school has a designated holiday, the clinic site will determine the student's schedule. Students are required to make up any missed clinical hours.

If the student is ill, the student must contact the clinic site, the CI, and the DCE prior to the scheduled start time for that day. For any extended illnesses, the student must present a note from a physician stating it is safe to return to the class/clinic.

Students have the opportunity to make up theory or skills lab hours in the Theory or Skills "Open lab" with specific objectives being completed. Acceptable methods of make up for theory, skills lab or clinical are at the discretion of the course instructor or as identified below:

- Theory or Lab – Acceptable methods of make-up may include:
  - Case Studies
  - Independent/guided study in "Open Lab"
  - Written examination
  - Attendance at seminars or workshops
  - Auto tutorial laboratory
  - Research Reports
- Clinical – Acceptable methods of make-up include:
  - Additional time in the clinical area with clients/patients.

It is the student's responsibility to ensure that make

up work for absences is completed and documentation submitted. The complete Attendance Policy and other policies are described in the IOT PTA Program Handbook.

## GRADING SYSTEM

Student performance evaluation is based on the combined scores received on homework assignments, quizzes, projects, skills performance, class participation, mid-course exams, Independent Study projects, and final examinations. All scores earned are converted to a percentage of the total score possible within each course. The range of the percentages converted to the letter grade as shown below will determine the final grade in each course. All course final grades are recorded as a letter grade. The progress or grading system by which students will be evaluated is as follows:

PERCENT	GRADE
90-100%	A
80-89%	B
70-79%	C
60-69%	D
Below 60%	F

## Grading

The grading standards, with the grade point equivalents, are as follows:

GRADE	RATE	Grade Points/Unit
A	Excellent	4.00
B	Good	3.00
C	Satisfactory	2.00
D	Unsatisfactory	1.00
F	Failing	0.00
Pass/No Pass		0.00
I	Course Incomplete	
CH	Challenge	
TC	Transfer Credit	

The grade-point average (GPA) is determined by dividing the total grade points earned by the total units attempted.

## ACADEMIC ASSISTANCE

Institute of Technology instructors are available during their scheduled office hours to assist students

with academic issues. Specific hours for each instructor will be noted on course syllabi. Institute of Technology also provides students with the opportunity to practice skills during “Open Lab” time, which will be posted at the beginning of each semester. The various labs will be supervised by instructors to assist students on an as-needed basis. We encourage students to use the Open Labs time to perfect hands-on skills such as computer software, office skills, lab procedures, beginning and intermediate physical therapy skills, NPTE-PTA review, etc.

In conjunction with the Academic Services Department, additional academic assistance may be provided in the form of one-on-one or small group instruction.

### DEFINITION OF CREDIT UNIT EARNED

Institute of Technology measures progress by semester credits. One semester credit hour is awarded for:

- A minimum of 22.5 clock hours of lecture, or
- A minimum of 30 clock hours of lab, or
- A minimum of 45 clock hours of externship

One clock hour equals a minimum of 50 minutes. See the Course Descriptions for the specific credits for each course.

Programs that do not lead to a degree or completely transfer to a degree program are subject to clock to credit hour conversion for the purposes of awarding credit and payment of Title IV funds. For a semester credit hour, non-term program the conversion is 1 credit per 37.5 hours of instruction.

# VA Catalog Addendum

## Institute of Technology

VA Catalog Addendum  
2026 Course Catalog

### **Evaluation of Previous Education and Training, CFR 21.4256(d)(3):**

This Institution will conduct an evaluation of previous education and training for all eligible veterans, grant credit when appropriate, shorten the training length proportionately, and notify the VA and the student accordingly.

### **Satisfactory Academic Progress, CFR 21.4253 – Course Catalog, Qualitative Evaluation, Page 55-59:**

Students must complete each class in the program within a minimum Grade Point Average of 2.0 (70%, the equivalent of a letter grade of C) or higher. Students are expected to maintain a 2.0 cumulative GPA. If a student is not maintaining a 2.0 cumulative GPA (70%) when measured at the end of the module the student will be placed on Academic Probation Warning for failure to meet the required standards until the end of the next module. During the Academic Probation Warning period, students must resolve the issues that resulted in being placed on Academic Probation Warning. Students who are not successful during the Academic Probation Warning period can follow the institutions appeal process and remain in school for one additional grading period defined as the Academic Probation period and still be eligible for financial aid. Students who cannot meet the Satisfactory Academic Progress standard at the end of the Academic Probation period, will be terminated from the program. Students receiving VA benefits will receive benefits for the approved program length, not the 150% maximum time frame.

### **Clarification of Probation Policy – Course Catalog, Page 55-59**

At the end of the probation period, if a student has not satisfied the specific requirements outlined in the specific violation, the student will be terminated and will lose his/her eligibility for Student Financial Aid and VA Benefits with the exception of an approved appeal.

However, the student will remain eligible for Financial Aid and VA Benefits while he/she is on probation. Under no circumstances, however, will a student be allowed to remain in school if they have failed three modules.

### **Student Deployment Policy**

Military students and their spouses called to active duty or deployed from their home station while enrolled in the Institute of Technology will be allowed to withdraw from the currently enrolled module/term/payment period by providing a copy of military orders. All tuition charges/payments related to the module/term/payment period that is interrupted will be refunded in accordance with allowances provided by the U.S. Department of Education. Any tuition increase and re-entry fee(s) will be waived for returning military students and their spouses if returned to the same program within 3 years of completion of military service. Furthermore, students who are hospitalized/convalesced due to service related injury or illness will be allowed to return to school within 2 years of recovery without being assessed applicable tuition increases and/or re-entry fees. Re-entering students should contact Student Services office to ensure a smooth transition back to an active student status. Current tuition and policies (or policy revisions) for military students will apply to all returning military students upon re-entry.

### **Certification of Enrollment Periods**

The institution is required to report the official start and end date of each module (or term, if the student is attending a term based program) in VA-Once. The school is also required to report breaks of 7 days or more. Please be advised that students receiving BAH will not be paid for days between modules or breaks of 7 days or more.

### **Tutoring**

Per (38 CFR 21.4236) VA may pay tutorial assistance to a student receiving benefits under chapter 30, 35, or 1606, or chapter 33. The purpose is to help students pay for any necessary tutoring. The allowance is a supplement to the claimant's monthly educational assistance allowance. For further information, please visit the Financial Aid Office.

### **Public Law 115-407: Sections 103 and 104**

All individuals who are entitled to educational assistance under chapter 31, Vocational rehabilitation and Employment, or chapter 33, Post-9/11 GI Bill® benefits (subsequently referred to as "covered individual") may attend or participate in the course of education during the period beginning on the date on which the individual provides Institute of Technology a Certificate of Eligibility for entitlement to educational assistance under chapter 31 or 33 (a "certificate of eligibility" can also include a "Statement of Benefits" obtained from the Department of Veterans Affairs' (VA) website – eBenefits, or a VAF 28-1905 form for chapter 31 authorization purposes) and ending on the earlier of the following dates:
